

Reporting Accidental Injuries and Work-Related Illnesses

REPORTING

University faculty, staff, and students are to promptly report all accidental injuries and work-related illnesses to immediate supervisors for evaluation and possible investigation.

Supervisors of University departments coordinating the use of University facilities or University sponsored activities are responsible for reporting all accidental injuries incurred by individuals who are not employed by WSU.

Supervisors must report any accidental injury or work-related illness within 24 hours of occurrence. See "Accidents/Illnesses" below.

For major accidents, supervisors must also **immediately** contact the applicable offices listed in the table on S25.20.2. See "Major Accidents" below.

Accidents/Illnesses

Accidental injury and work-related illness reporting includes the following:

- Notification of emergency medical assistance when required; telephone 911.
