During Normal Business Hours (Monday - Friday; 8:00 AM - 5:00 PM)

- If there is an animal related emergency during NORMAL BUSINESS HOURS, call the OCV MAIN LINE FIRST (509-335-6246).

- If there is no answer, leave a message – this voice mail is checked by everyone. THEN also call the OCV Pullman Emergency Cell Phone (509-330-1871). That phone is always in the possession of one of the OCV veterinary staff.

- OCV Main Line - 509-335-6246
- OCV - Pullman Departmental Email: or.ocv.alert@wsu.edu
- Nina Woodford, DVM, MPH, DACLAM – Director/Attending Veterinarian: 509-335-8035 (nwoodford@wsu.edu)
- Gay Lynn Clyde, DVM – Assistant Director – Campus Veterinary Services: 509-335-4991 (gclyde@wsu.edu)
- OCV Emergency Cell Phone: 509-330-1871
- OCV Fax number: 509-335-3162
- OCV campus zip code: 1165
- OCV web site: http://campusvet.wsu.edu/

After Hours, Weekends and Holidays

OCV Emergency Cell Phone: 509-330-1871 (this is a local call in Moscow/Pullman area)

When calling this number, if no one answers right away, you will be asked to leave a voice mail message to include your name, phone number where you can be reached to answer questions, nature of emergency, others you have contacted in regards to this situation, and location of animal (include building and room/pen number).

Please "flag" the animal with a GREEN vet check card on the cage/pen of the animal that requires veterinary evaluation so the animal may be easily located by vet staff. (Additional cards may be acquired by calling the main office at 509-335-6246). If you do not receive a call back from the veterinary staff within 15 minutes of the call, please continue to call the emergency cell phone until you are able to communicate directly with the OCV staff.

WSU Veterinary Teaching Hospital: 509-335-0711 (24 hour-a-day emergency number)

If an animal requires immediate veterinary care and attention, you may contact the Vet Teaching Hospital at any time of the day or night. Animal may need to be transported to the teaching hospital for care/evaluation.

Note: Anytime an animal is found to be abnormal, the following individuals are to be notified:

- Principal investigator and/or research staff
- Animal Facility Supervisor
- Office of the Campus Veterinarian
